

Teak Renovator 2

TEAK RENOVATOR 2

Restores the natural orange tone of teak and other oily woods.

Very dirty teak:

Dilute TEAK RENOVATOR 2 in a bucket of water at a ratio of 1 parts water to 1 part product. Thoroughly wet the teak with water, apply the mixture with a brush, covering areas of approximately 1 m².

Wait for the teak to turn a dark brown color, then rinse the area thoroughly with water. Repeat the process for another 1 m² to complete the entire cleaning area.

Regularly maintained TEAK:

Mix TEAK RENOVATOR 2 at a ratio of 5 parts water to 1 part product. Thoroughly wet the teak with water, apply the mixture with a brush covering areas of approximately 1m². Wait for the teak to turn a dark brown color and then rinse the area with plenty of water.

Note:

Avoid prolonged contact with paint, gelcoat or varnished surfaces. May stain aluminum—protect if necessary.

Available sizes: 1L / 5L

Color: Translucent

- We believe the environment is our most valuable asset, and we must take personal responsibility for how we impact it.
- We develop products with outstanding quality and performance, meeting the highest environmental regulatory standards worldwide.
- Bestial Soaps have demonstrated that an environmentally responsible approach to cleaning chemical development does not compromise performance or value for money.
- Our products are manufactured in Spain, ensuring a reduced carbon footprint through local sourcing.

All our products comply with European sustainability and biodegradability regulations, as well as: MARPOL Annex 24 / Resolution MEPC.219(63) (adopted March 2, 2012)

- NPDES compliant
- EC Regulation No. 648/2004 compliant
- REACH compliant
- Excellent aquatic toxicity profile
- VOC-free

Warning: Use of this product outside its recommended applications is not advised (see product label).
